

A BEAUTIFUL TRANSFORMATION

South Riding Golf Club's Clubhouse Gets a Stylish Makeover

Nestled in the South Riding community, South Riding Golf Club has long been a beloved gem for golf enthusiasts in our community. Now, with the recent stunning renovations to its clubhouse interior, South Riding has not only elevated its appeal to golfers but also emerged as a vibrant social hub where both golfers and residents can gather to enjoy great food, golf course views, and impeccable design.

Master's Home Design, renowned for its expertise in transforming spaces into works of art, took on the task of revamping the clubhouse with the direction of the Club's management team. Their vision was clear: to create a modern, welcoming atmosphere that seamlessly integrates with the community and also the club's daily golfer.

Upon stepping inside, visitors are greeted with a beautiful chandelier from the high ceiling and stonework that draws your eyes to the large windows facing the back deck. The designers skillfully incorporated large windows and curtains, allowing natural light to flood the space, and offering wonderful views of the grounds and driving range. Soft, neutral color palettes complemented by accents of nature-

inspired hues create a serene and relaxing ambiance, enticing both golfers and non-golfers to settle in and enjoy the surroundings.

One of the primary objectives was to enhance the clubhouse's interior to make it an attractive destination for golfers looking to unwind after a rewarding round or to socialize before their tee time. The team achieved this by embracing a contemporary aesthetic while adding seating at the bar, along the windows, and in front of the newly added flatscreen televisions on each wall.

The added seating in the Grille was planned to accommodate residents from the community who want to relax in front of a tv at a high top or a lounge seat. Food & Beverage Manager Peter Maxwell and General Manager Jon Fulton carefully selected the bar-top and newly added kitchen wall to present an inviting area for beer lovers to try what's on tap at the bar. In addition to the spacious indoor dining area, new tables, chairs, and televisions have been added to the back deck for that perfect summer evening.

For community residents who may not be avid golfers, the clubhouse has become an enticing destination for lunch or happy hour. The inviting

ambiance and good eats have started to bring in more and more of the South Riding community since it reopened from the renovations at the beginning of July. The Club is looking forward to expanding its event schedule to include brunch, happy hour, watch parties, and social gatherings. As the momentum continues to grow, South Riding wants to be the go-to location for your social gatherings and occasions.

In conclusion, the transformative renovations executed by Master's Home Design have elevated South Riding Golf Club's clubhouse to new heights. Beyond its beautiful appearance, the clubhouse now serves as a wonderful spot for both golf enthusiasts and local residents. The warm and inviting atmosphere paired with your weekend foursome will be the perfect hangout destination. Catch a game at the Club soon, invite your group to hangout after your next round, bring the family for lunch, or stop by after work for a pint on tap. See you soon down at South Riding Golf Club!
