

Elk Lick Park – Timeline and Summary

Elk Lick Park is home to South Riding's newest amenity, our pickleball court, renovated basketball court and our dog park. We are adding additional parking, a walking trail along the courts to the dog park, seating, signage, lighting, hardscape, and landscaping to the park.

9/18/2023: We are on the paving company's schedule for the week of October 16th with an estimated 8 days required for full project completion and curing. Please note, this will involve closing the parking lot restricting easy access to the courts and dog park. Landscape installations will be started within a week of the paving completion.

8/8/2023: Plans and funds have been approved for the landscaping, hardscaping, and paving portions of the project with a late September/early October timeline. Proposal requests are in process for the remaining components.
