**11/24/25** - The Budget & Finance Committee approved the expenditures for the South Riding Center playground equipment and new fencing. The project will next go before the Board of Directors for consideration at their December 3, 2025 meeting.

**10/21/25** - The Parks & Recreation Committee reviewed the new playground designs and approved Option 3 at their October meeting. They also provided feedback on the fencing style. **9/12/25** -In accordance with the community's 2024 Replacement Reserve Study, several upgrade concepts were developed for the South Riding Center Park playground. One plan was selected and approved by both the Parks & Recreation Committee and the Budget & Finance Committee in June 2025.

The plan then went before the Board of Directors who requested more time for owner feedback. At their September meeting the Board directed Staff to create a new plan that includes swings and fencing.

We do not have a timeline for when a final plan will be ready for review and approval by the Parks & Recreation Committee, the Budget & Finance Committee and then presented to the Board of Directors for final approval.

**7/15/25** - The following pages were posted to southriding.net on July 15, 2025 and include the plan that was approved by the two committees in June and other plans that were considered by Staff and volunteers through the initial planning.
